ENR California is pleased to announce that Giroux Glass Inc. is the region's 2020 Specialty Contractor of the Year!

Founded in 1946 and headquartered in Los Angeles, the glazing contractor has worked on some of the region's most prominent recent projects.

Giroux Glass was part of at least five project teams awarded [ENR California's 2020 Regional Best Projects](#) honors, including Southern California's Best Higher Education/Research project for Marion Anderson Hall at UCLA's Anderson School of Management.

Other major, recent Giroux Glass projects include: LAX Southwest Airlines Terminal 1, SoFi Stadium, and the Los Angeles Memorial Coliseum's massive renovation.

The firm employs 243 workers and is headed by Nataline Lomedico, Giroux Glass' president and chief executive. You can read more about Giroux Glass in ENR California's November 2020 issue, which will also publish the results of this year's Top Specialty Contractors survey.

Giroux Glass, and all of ENR California's firms of the year and Regional Best Project winners, will be celebrated at two virtual events. The first, for Northern California Best Projects winners, will take place Monday, Oct. 5, 2020. The second, for Southern California, is scheduled for Friday, Oct. 9, 2020. Both events are complimentary, and you can register here for the [Northern California event](#) and [here for the Southern California event](#).
